

THE DOTHAN EAGLE

DOTHAN'S POPULATION: 1890, 247; 1900, 3,275; 1910, 7,016; 1920, 20,000. "FOR I HEARD THEM SAY, LET US GO TO DOTHAN."

DOTHAN, ALABAMA, FRIDAY AFTERNOON, DECEMBER 4, 1914

NEGRO FARM DEMONSTRATOR IS ADVOCATED

T. Washington Thinks Negroes should be Made to Actualize Their Negro Tenants.

Some weeks ago, through our Southern papers, I made a suggestion that each negro family raise one or more additional pigs this year in order to help bring about more prosperity in the South. I have been surprised to note how well the suggestion has been received, and how many are following it; one minister in Uniontown, Ala., went so far as to organize a Pig Club in his church.

Now, I want to make one other suggestion, that, in my opinion, is of still greater and more practical importance. For months the great cry has been all through the South to stop growing cotton or reduce the acreage.

Chambers of Commerce, Business Leagues, State Legislatures, and other bodies have passed resolutions without number urging that we in the south stop growing so much cotton. To stop growing cotton is very easy; in fact it is always easy to stop work, but merely to stop growing cotton is a mere negative proposition and will not, I fear, leave the South much better off than it is at present. If we destroy, or cripple a great industry, we should be very sure to have one, or a number equally good to put in its place. In this connection it should be kept in mind as a matter of great importance, that if the labor once leaves the farm by reason of changing crops it will be very difficult to get the labor to return to the farm in after years.

The great cry is to grow food crops. That is well, but one must keep in mind that the great masses of negroes who have actually grown the most of the cotton in the South for years, and who live upon the most valuable land in the South do not hear of the resolutions that are passed by these various bodies. These people have been trained to grow nothing but cotton and do not know how to grow anything else. In fact, in many cases, they have not been permitted and are not now permitted to grow anything else.

We also bear in mind that the largest land owners seldom visit their plantations—some not more than once or twice a year, and hence can be of little service in teaching these negro tenants how to change all at once from a cotton producing crop to a food producing crop.

If permanent results are to be secured, the negro who actually cultivates the land must be reached and trained into growing a food producing crop. How can this be done? My answer would be, by putting a negro farm demonstration agent into every county of the South where there is any considerable number of negro farmers. This demonstration agent should be a man of good common sense. He should be a man who knows the characteristics of the colored people, who knows how to reach them through their societies, their churches and their various organizations.

NEGRO DRIVER GETS BEATING

Walter Crawford, a negro, who formerly drove a mail wagon from trains to the postoffice, but who has severed his connections with the government, and who now operates an automobile for hire, was beaten about the head and his automobile was damaged in a row of some kind at the Bay Line passenger station last night.

The chief of police said today that charges would be brought against several white people in connection with the affray, although none came up for trial in Mayor's court this morning. The police have the matter under investigation.

Crawford is the same negro who provoked a well known physician to such an extent that the doctor proceeded to give the negro a sound thrashing some time ago.

Protected By Trees Men Shoot Each Other

In a shooting affray that occurred near Granger, Oscar Granger received two bird shot wounds near an eye, and was also peppered about the chest. In connection with the difficulty, Virgil Hart is being detained in the county jail.

According to reports reaching here, both men were stationed behind trees, and Hart selected the largest tree, thereby minimizing his chance of being hit, although it is said he was slightly injured. The officers say that Hart said Granger ought to have kept behind his tree, neither of the men, it is said, are seriously injured, yet both men used small bird shot in their weapons.

FIRST ARGENTINE AMBASSADOR

Washington, December 3.—Romulo S. Noan, for three years minister to the United States from Argentina, today presented his credentials to President Wilson as the first ambassador from his country.

Throughout the country training the negro farmer how to produce a food crop. Whenever these demonstration agents have already been at work in the south, they have done work which has been most helpful and commendable.

If this important work is to be done, no time should be lost in selecting these demonstration agents. The cost should not be very large. Either through county appropriations or from some part of the State funds appropriated for agricultural purposes, a portion of the money for the salary perhaps could be provided. Appropriations are also being made by the United States Government to encourage and promote various kinds of agricultural work. Some part of this money, I feel sure, might be secured from the Smith-Lever fund or from the United States demonstration fund administered through Mr. Bradford Knapp. While I am not in position to suggest just where the money may be secured, I think that if an earnest effort is made some portion of it can be secured.

Koonce Residence at Columbia Destroyed By Fire Early Today

Columbia, Ala., Dec. 4.—(Special to The Eagle)—This morning about five o'clock fire, caused most likely from electric light wires, originated in the attic of the residence of J. M. Koonce, cashier of the First National Bank of Columbia, and resulted in the complete destruction of the house. The loss is about \$5,000, partly covered by insurance. Most of the household effects, however, were saved.

The residence was one of the handsomest and best in Columbia, also one of the oldest, as it was the old J. S. Koonce home remodeled and modernized.

Mr. Koonce and family for the present are with Mr. and Mrs. R. D. Clark, where they will perhaps remain until their home can be rebuilt. Mr. Koonce said this morning that he purposed to begin rebuilding as early as it is possible.

SHIPS IN COLLISION; ONE GOES TO BOTTOM

Deal, England, Dec. 3.—During one of the fiercest gales on record the Dutch steamer Batjan, of 6,000 tons gross, from Java went ashore last night on Goodwin sands after a collision with an unidentified steamer.

The weather was so bad that the life-savers were unable to launch their boat until early this morning, when they rescued the Batjan's crew with difficulty. The captain alleges that the colliding steamer sank with all on board.

THIRD NEGRO LYNCHED

Shreveport, La., Dec. 3.—Kane McKnight, another negro charged with participation in the robbery and murder of Charles M. Hicks, postmaster at Sylvester, La., was lynched late yesterday afternoon, according to reports from Sylvester today. It was the third lynching yesterday in connection with this crime.

Feeling is running high in the Sylvester neighborhood. It is said, and other lynchings are predicted as a result of the finding of goods stolen from Hicks' store in the houses of other negroes.

HAD SAME COUGH FOR SEVERAL YEARS

Woman Fifty Years Old—Coughed More or Less Since Childhood—Found No Relief Until She Got Vinol.

Dayton, Ohio.—"I want everybody to know what Vinol has done for me. I am now fifty years old and ever since I was a young girl I have had a cough most of the time, and rich bronchitis which left me weak and with no desire for food. "I took all kinds of medicines but nothing seemed to do me any good. Finally my doctor told me to try Vinol, saying that if it did not help me he would refund my money. I felt so much better after taking one bottle I bought more. Now my cough is entirely cured. I have a good appetite and feel better than I ever did in my life, and I am proud to recommend Vinol to everybody."—Mrs. J. C. Schumann, Dayton, Ohio.

Dothan Undertaking Co Has Automobile Hearse

A 50 horse-power Oldsmobile hearse, owned by the Dothan Undertaking Company, reached the city yesterday afternoon. The hearse, which is the first of its kind in Dothan, was brought to this city from Montgomery by C. J. Faulk. The trip was made without difficulties being encountered.

Difficulty has been experienced in the past, according to J. O. Godwin of the Dothan Undertaking Company, in obtaining suitable horses to pull the old hearse when needed, so the automobile hearse was purchased to replace the old vehicle. Godwin says the machine has a capacity of from 4 to 40 miles an hour in high gear, and that it can climb hills, pull through sandbeds or roll smoothly over paved streets, as the occasion requires.

CRACKERS HELP IN ENTERTAINING

(By Lillian Dynevor Rice in The Housewife.)

By all means keep on one of your pantry shelves several packages of your favorite crackers—sweet and otherwise—not only to provide a wholesome snack with or without a glass of milk for yourself and the children, but to lend valuable help when guests arrive unexpectedly for lunch or tea; for from them you can evolve, often even without cooking, a number of dainty and satisfying dishes. Even when the guests do not require these, try some of them on the family for the Sunday night supper.

If a hot dish is wanted, butter unsweetened crackers, put them in layers in a deep earthenware baking dish with grated or thinly sliced cheese between, seasoning each layer with a very little salt and a sprinkle of cayenne, then cover with boiling hot milk and bake until the top is brown, the crackers swelled to twice their original size and the cheese melted. If eggs are available they may be beaten up with cold milk and this poured on instead of the hot milk. It will form a delicate custard with the crackers and cheese.

For another hot dish, very appetizing, drain a can of tomatoes, use the solid portion in place of the cheese, and pour the liquid over the crackers, adding a little boiling water if it is not sufficient to cover. Bake as before. Of course, season with pepper and salt. To use in place of salad when green stuff is scanty or unavailable, a very little watercress, lettuce or celery may be made to go a long way; also the heart part of white cabbage by buttering Baronet Biscuit or Uneda Biscuit and using between a leaf of lettuce moistened with French dressing.

DALACE TODAY

Nineteenth episode of "PERIL OF PAULINE"

Three reels licensed pictures—"THE BENVILLE FIRE DEPARTMENT"

A side-splitting farce-comedy by the Kalon people.

Henry Gerty Jailed For Stealing Bale of Cotton From Landlord

Caught in Dothan and taken to Henry County.

Henry Gerty was last night arrested by officer Dehazo and lodged in jail on a charge of stealing a bale of cotton in Henry county yesterday and converting the proceeds to his own use. The prisoner was working for Will Peterson, who lives near Balkum, and was instructed to take a bale of cotton to the gin yesterday morning. He did so, taking it to Shelly's Cross Roads, where he sold the seed to Mr. Spann, the ginmer, and then he took the bale of cotton to Headland and sold it to Camp. He then hired an automobile and came to Dothan, where he blew the money, buying a complete suit of clothes, and was having a perfectly furious time, till arrested by Dehazo, on a telephone message from Headland. He had left Peterson's team in Headland, and left instructions to have the mules put in Holman's stable.

Peterson came on to Dothan this morning and found his man in jail, who admits everything. Peterson says he can recover his cotton and the seed, and Gerty will have to answer to Henry county authorities for his crime.

ing or mayonnaise, or watercress picked apart and moistened with French dressing, or celery finely chopped and mixed with pounded nut meats, then moistened with mayonnaise. The cabbage can be very thinly shredded for cold salad and dressed with vinegar, pepper and salt, or mixed with tomato catsup. Picadilli or sweet tomato pickle can be drained and used in similar fashion. None of these fillings should be put between the crackers until serving, so the whole will be crisp.

When it is desired to serve the crackers as sandwiches use Baronet Biscuit, Uneda Biscuit or Saltines. For fillings, free sardines from skin and bone, add an equal quantity of hard boiled egg, rub to a paste and season with cayenne and lemon juice. Salmon may be prepared in similar fashion. Cheese may be mixed to a paste with chopped nuts and seasoned with cayenne and a little salt. Chopped olives go well with cheese, as do sweet red peppers. Dairy cheese may be rubbed to a paste with butter and seasoned with Worcester-shire sauce and cayenne. Still another filling may be made of chopped freshly-roasted peanuts, salted and mixed with fresh butter. Of course, any of the potted meats will make a good cracker sandwich filling, also herring or anchovy paste.

For a sweet course see Cecilia Biscuit, Baronet Biscuit, Graham Crackers or any of the slightly sweetened kind. These may be put together two and two, after being slightly buttered, with a filling of chopped nuts and raisins, the moisture of the raisins holding the fillings together; or chopped dates and preserved ginger; or figs and nut meats with a little ground cinnamon. Grated or shredded sweetened may be mixed with preserved fruit.

WEBBER PAYS THOMAS VISIT

W. E. Webber, of Montgomery, an official starting judge for horse races, and who acted in this capacity at the Dothan Fair this season, stopped in the city last night to confer with Secretary Fred H. Thomas, of the Dothan Fair, in regard to obtaining the services of Mr. Thomas as a general secretary for a number of fair organizations in a proposed circuit to include portions of Alabama and Georgia.

While here during the Fair, Mr. Webber who had often visited Dothan friends before in connection with his business interests, made many new friends. He stands well among the horsemen of the State, and has become a Dothan booster.

TOBACCO CROP NOT DISAPPOINTING

Immigration Work of Central Railroad Will be Continued.

Another Year—One Acre Farm Yields \$576.34 in Tobacco.

J. A. Winslow, who has had charge of the tobacco demonstration work along the line of the Central of Georgia Railroad says that there will be more demonstration farms another year than this year, although the war cut the price of tobacco down considerably.

One five-acre farm at Florala, produced \$576.34 worth of tobacco, which netted \$512.32. The South probably hasn't a five-acre tract planted in cotton that yielded half that much.

J. J. Whiddon, who lives just east of town, had a very late crop of tobacco, and poor stand. His yield wasn't so good, as the grade was low, and his ran about \$50 to the acre, but he isn't to be discouraged. He will plant more tobacco another year.

Mr. Winslow said that the week before the war in Europe broke out the tobacco market was higher than it had been in some time, and the prospects were bright, but the price was depressed, on account of the war. Many of the bigger tobacco growers of the Carolinas will not plant much tobacco this year, for the same reason that cotton planters will reduce their acreages, and he believes that the price will be better this summer than the past.

There are many volunteers coming in this year to put in a demonstration patch of tobacco.

Mr. J. F. Jackson, Immigration Agent of the Central, was here today, and he, like Mr. Winslow, thinks the prospect is bright, and much good will be accomplished along this line if the people continue in their interest.

Down at Florala and Sumner, where the boll weevil has eaten them out of the young cotton and sap action, they are ready to try anything. They have now what the boll weevil will do.

GRADY PITCHER GETS BAIL IN LANDERS CASE

Former Police Officer Released by Grand Jury on Five Dollars Murder Charge for Shooting Landford Love.

Under testimony offered by the defense, Probate Judge A. C. Crawford this afternoon allowed Grady Pitcher, indicted by the grand jury on a charge of first degree murder, bail in the sum of \$5,000, the bail being the same amount as was named by the judge at the preliminary hearing when the state granted its testimony.

The State did not offer a single witness today, and both sides rested without argument. The hearing witnesses for the state were on hand, but Solicitor T. H. Crawford decided not to introduce any testimony.

The most interesting witness was defendant, Grady Pitcher, the former police officer charged with shooting Landford Love, who died the next day after the tragedy. The defendant, among other things, testified that Love cut at him several times with a knife, and that he did not push Love back. He claimed placing alibis on the prisoner, but said that they were taken off before the time of the shooting.

Charged with first degree murder in an indictment returned by the grand jury of the Circuit Court, former Police Officer Grady Pitcher was placed under arrest yesterday afternoon by Sheriff B. O. May, who put the former policeman under guard.

Following the arrest, a writ of habeas corpus was issued, and the defendant will be given a hearing before Probate Judge A. C. Crawford this afternoon at 3 o'clock to determine if he shall be admitted bail with the case come on for trial before a jury in the Circuit Court.

The shooting of Landford Love by Grady Pitcher, who was police officer in the red light district and summer, created a great deal of interest at the time. Shortly after the difficulty, Pitcher was given a preliminary hearing before Probate Judge A. C. Crawford and allowed bail in the sum of \$5,000, which was effective until the indictment returned by the grand jury.

One night last summer Officer Pitcher arrested Landford Love in the red light district, and was brought on when the tragedy occurred. Love, it is claimed, resisted the officer, who fired. The bullet entered the breast, and Love died a few days afterwards. It is believed that Pitcher was slain and that he shot Love in ground help out with a knife.

It is believed that many witnesses will be put on the stand to prove the defendant's story. The state will make no move to prove Pitcher's story.

Dr. D. H. Yarbrough, a well known physician of Gordon, was in the city today on business.

Friday, December 4, 1914

Good deal of pickering will be going on through the South of the hard times keep up for we have a lot of people who are going to eat and many of them don't feel like working for less than they did when times were flush.

Of all the things you think of buying for Christmas, look through the Dothan stocks and see if you can't get what you want. This isn't a time when you should send one single dollar out of the city for anything that could be bought here. You might send a hundred dollars away from home for an item, because you save ten, but if you spend that hundred dollars here, it will do others more good and will be worth more to your own business.

IF WE MADE NO COTTON ANOTHER YEAR.

If we made no cotton another year, there is no telling what the outcome would be. But certainly it wouldn't be as fortunate as most farmers think. If it were known that no cotton planter was planting any cotton in 1915, the price of the present crop would jump as high as a deer and even the paternal oil mill folks would pay more for seed. Just their mills stand idle for a year or two.

One farmer is afraid to take the risk, thinking that he will be the only one who doesn't plant. The individual should look out for his own welfare, and let the others do the same. If he can live without the cotton for a year let him do it, and plant other crops and do less hard work in proportion to the income.

THE COTTON SEED TRUST?

The State of Mississippi is performing a distinct service to the farmers of the south by giving the alleged existence of a cotton seed trust a thorough investigation. It has been charged that a secret organization known as the "Sons of Pius" has been fixing the price to be paid by cotton seed oil mills and their representatives for cotton seed. And the testimony that has come out at the investigation being held at Meridian tends to show that the charges were true.

If such combination does exist, it should be abolished as it could work untold injustice to the producers of cotton. The sale of the seed is so small item to the cotton producer, and a combination of the buyers to fix arbitrarily the price to be paid for this part of the crop would deprive the farmers of a tremendous sum of money justly theirs. If the existence of such a trust is established, Mississippi should be enabled to mete out the punishment that is merited.

This is one Christmas that the money people spend will likely be for items of value.

Maxwell House Coffee

"Something Better Than Simply Good."

The pride of the housewife and the delight of the epicure. Guaranteed to settle the Coffee Question in your home.

CHEEK-NEAL COFFEE CO.,

NASHVILLE HOUSTON JACKSONVILLE

From the Cincinnati Enquirer.

Man is a suspicious animal, and he believes that the person who uses the most perfume is the person who needs it most.

Some of the girls seem to be doing all they can to solve the problem of wearing as little as possible and still keep from freezing to death.

If there is an extra room in the house that she doesn't want to use for anything a woman will put a rug and a chair and a table in the room and throw three magazines on the table and call the place the library.

Men are divided into three classes—hammers, anvils and bellows. Truth is elastic. But if you stretch it, it will fly back and sting you.

Why is it that the females who want to be known as new women are always old ones?

The woman who is wearing a hall clock pendulum dangling from each ear is always first to chip in toward a fund for enlightenment of the Zulus who wear rings in their nose.

You go to Sunday School and learn that there are ten commandments. Then you get married and learn that there are 10,000,000 commandments.

A physician has discovered that inhaling sulphur will cure catarrh. If this is a fact, there are a whole lot of us who won't suffer with catarrh in the next world.

Hundreds of farmers admit they are helpless when it comes to thinking out something to plant besides cotton. Probably the severest way to educate them is to let them go ahead and see how much cotton they can plant another year, and how they come out at three cents a pound. Enough can be raised, under certain conditions, to make the stuff a drug on the market. When it is impossible to sell cotton, then our people will realize that something else must be planted. Another year is a good time to cut the acreage half in two, and there are many farmers who would do well not to plant any, for we have a few who know how to make a living, and some money, without cotton.

This is one Christmas that the money people spend will likely be for items of value.

GOVERNOR'S STAFFS.

The governor's staff business is one the wage. They merely serve to attract attention, which a monkey or two bull dogs can do. A Kansas editor has this item: "In Kansas City union station Thursday morning were Governor Majors, of Missouri and his staff. The governor wore a silk hat, and a chrysanthemum as large as a saucer on the lapel of his Prince Albert coat. Two members of his staff looked like St. Louis brewers and wore enough gold lace to start a pawn shop, along with caps which were too small, bright and varied uniforms and the conventional swords. A tall man and a short man, in uniforms completed the staff. People stood around these men and nine out of ten were amused, smiled and made fun of them. A governor's staff is about as much account as an old almanac."

And yet, think of the political debts that have been completely wiped out by the good governor simply by making a staff appointment. And think of the good iron dollars spent for the uniforms, but when the Alabama colonels of the governor's staff think of themselves gallivanting to New York on a junketing journey, and charging the expense to the state, which in turn charged it back to their private accounts, they have a case of jim-jams. The State is a fool about its colonels, and enjoys them, but the state wants them to understand that if they spend any money it must be their own.

All of which is interesting, since soon another staff for the governor

SIMPLE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It grows the hair and keeps it from falling out.

THE DOTHAN EAGLE

must be built up, and instead of the wise ones dodging the empty honors, they will stand in line for hours, thinking the lightning will hit them, and make them famous for life.

AN EDITORIAL APPEAL.

From the Bailey (Tex.) Telegram. If a member of your family died, would you print the obituary on a billboard? If your wife entertained would you send an account of it to the theatre programme man? If you were to enlarge your business would you advertise it in a hotel register? If you were going to have a wedding in your family, would you get out a handbill? You would send such items to a newspaper, wouldn't you? Then, why don't you put your advertisements in a newspaper? Every man who uses a billboard is adding to nature's fakery. The newspapers build your town.

Closing Out Sale

All cans and package goods at cost for cash. Coffee, the best Volcan, Maxwell House, St. Regis, three pound cans, 80 cents; one pound can 30 cents; Luscious, one pound can, 20 cents.

TAKE SALTS TO FLUSH KIDNEY

Eat Less Meat if you Feel Back-

achy or Have Bladder

Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder disease.
